STUFF YA GOTTA HAVE - JANUARY

Lite Cylinder allows user to see propane level

The Lite Cylinder's composite make-up is lightweight and translucent. Lite Cylinder not only eliminates the potential for tank-related rust but also the possibility of unexpectedly running out of propane while enjoying an otherwise perfect outing. A non-corrosive exterior will not leave rust stains on your boat. Its translucent windows make it easy to see the propane level. It's lightweight: 30 percent lighter than steel, and available in 10-lb., 20-lb. and 25-lb. options.

Suggested retail prices are from \$85-115.
